

The World's finest Direct Ophthalmoscope

## Specialist

We recognise that illumination is of fundamental importance to good diagnosis. The re-engineered optics give 30% more Xenon illumination and because it is longer lasting, that means fewer bulb changes giving greater peace of mind.

### 30% more illumination

Re-engineered optics give 30% more illumination to get through, for example, cloudy media and cataracts.

### Lightweight and well balanced

Almost 50% lighter, the Specialist combined with the slimline handle is perfectly balanced.

### Expanded dioptre range

The most comprehensive lens range available in a direct ophthalmoscope, +44D to -45D lens range guarantees optimal diagnosis in any situation.

### Slimmer optics

Slimmer and enclosed viewing optics enable you to get closer to the eye providing a wider field of view.

### Premium hand made optics

The Morton Lens Track system, made up of individually ground glass lenses ensures an optimal view.

### New Cobalt Blue filter

The new blue filter can be used in conjunction with fluorescein dye for the detection and examination of corneal scars and abrasions.

### Pupillometer gauge

The pupillometer disc allows quick and easy estimation of pupil size.

1011-P-7042	Pack of 2 Vista 20/Specialist Ophth. Bulbs 2.8V Halogen

## Professional

The Professional Ophthalmoscope has been designed to ensure ultimate control. Lenses, graticules and filters can all be introduced at the touch of a fingertip without the need to pull away from the patient.

**Positive action maywheel and comprehensive lens range**  
The positive action, easy access, maywheel not only allows you to dial up the required lens quickly, but also gives you total control of where you are in the lens range making each exam quicker and easier.

The extensive range of +29D to -30D in single dioptre steps ensures easy examination of all ocular structures and covers a wide range of patient/user prescriptions. A quick step swing of +/- 20D helps speed up diagnosis.

### Xenon illumination

The Professional also uses Xenon illumination for a brighter and whiter long lasting light. Giving you more power and fewer bulb changes.

### Swing over filter

The red free filter for enhanced vessel examination can be used in conjunction with any of the 6 diagnostic beams.

### Brow rest

The integral soft brow rest allows for easy positioning and protects your lenses if you are a spectacle wearer.

1011-P-7106 Pack of 2 Professional Ophthalmoscope Bulbs 2.8V Xenon

## Professional Combi Retinoscope

Optimised for outstanding performance with either a Streak or Spot beam with a simple bulb change.

### 600 lux of brilliant halogen illumination

The Professional Combi Retinoscope guarantees you enough light to refract even the most difficult eyes.

### Neutralisation check (Patented)

The only Retinoscope allowing rapid confirmation of neutralisation. In both Streak and Spot modes you can change the beam from divergent to convergent enabling you to cross check the accuracy of the neutral point. The ability to double check neutralisation in the upper position guarantees the assessment is correct every time.

### Precision magnetic control (Patented)

Improved 360° access to a single control for both rotation and convergence adjustments. The precision movements are achieved by use of rare earth magnet technology.

### Two position aperture

A simple finger movement allows a choice of 4mm or 1.7mm aperture to optimise brightness or resolution of the retinal reflex.

### Unique spectacle bar

An interchangeable soft pad is available for spectacle wearers.
